Thank you again for your participation in the April 2011 meeting of the NAS Committee on Emerging Science for Environmental Health Decisions. You were valuable contributors to the meeting and discussions, and the committee greatly appreciates your sharing your expertise.

I have worked with a science writer to prepare highlights of the meeting for our public newsletter, and you are encouraged to review the comments attributed to you.

Please take a few moments to look through the text with your highlighted comments (see color and page key below). Check for errors, but do not change the text for other reasons. Our professional editor will fix grammatical errors, so you do not need to worry about these.

If you find an error in your comments, please notify me by September 6, 2011. If we do not hear from you by then, we will assume that you have no concerns.

Thank you again for your participation, and please do not hesitate to contact me if you have any questions.

Many Thanks,  
Keegan
